

Lamego

Sofa Range

This is a transitional style high leg motion sofa. The arm is beautifully curved and the generous padding provide elegant ease and comfort. Pocket sprung seats featuring foam wrapped in soft Dacron fibre offer excellent support and comfort, and will bounce back to shape with regular maintenance. Back and arm cushions filled with foam wrapped in Dacron fibre add to this support. The seats are supported by solid steel serpentine springs aligned with silent wire, which distribute weight evenly across the sofa, ensuring you don't sink into the corners of your seat.

Remarks

The natural leathers used to upholster have unique characteristics including scars, grain variations and other markings.

It is normal for leather to show signs of stretching and creasing and for interiors to lose density from use.

Furniture is designed for a maximum user weight of 120kg.

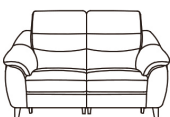

Dimensions and specifications may change without prior notice.

All dimensions are approximate, please allow a tolerance of +/- 25mm (1 ins).
